

~ Spring 2026 Offsite Event Calendar ~

All offsite event and sale details can be found through the corresponding website or contact information listed with each event.

Pre-orders can be arranged by e-mailing sales@brokenarrownursery.com no earlier than 6 weeks and at least 5 days prior to the sale. Advance requests in writing for the plants you're looking for will expedite our confirmation process and help assure that you get the cool plants you want to take home! Offsite sale pickups are subject to plant size and quantity limitations and offsite plant prices may be slightly higher than catalog prices to cover transportation to the site. Many thanks from the Broken Arrow Nursery team!

Ladew Topiary Gardens Specialty Plants and Garden Ornaments Sale – Saturday, May 2, Monkton, MD

Time: 8 AM – 4 PM

Additional Info & Registration: <https://www.ladewgardens.com/gardenfestival>

Now in its 18th year, Ladew's annual Garden Festival has become the most anticipated specialty plant, garden ornaments, and antiques sale in the region. Shop from over 30 exclusive vendors from across the eastern seaboard offering hard to find perennials, specialty annuals, unique small trees, unusual exotics, container specialties, decorative garden furniture, urns, and architectural treasures. Garden Festival, Ladew's biggest event of the year, raises funds used for the preservation of the 22-acre historic topiary gardens, historic Manor House, the native Butterfly House, the Children's Environmental Education Program that serves nearly 4,000 children each year, and the array of over 100 events and educational programs offered to the community.

Sakonnet Plant Fair – Saturday, May 2, Meeting House Lane, Little Compton, RI

Time: 9 AM – 2 PM

Additional Info & Registration: <https://sakonnetgarden.net>

5th Annual Sakonnet Plant Fair; Little Compton Commons, Rhode Island.

Fundraiser for the Little Compton Village Improvement Society

Margaret Roach Open Garden and Broken Arrow Nursery Plant Sale – Saturday, May 30, Copake Falls, NY

Time: 10 AM – 4 PM

Additional Info & Registration: <https://www.eventbrite.com/e/margaret-roach-open-garden-broken-arrow-plant-sale-tickets-1985441692549>

The garden, more than 35 years old, reflects Margaret's obsession with plants, particularly those with good foliage or of interest to wildlife, and also her belief that even in Zone 6A the view out the window can be compelling and satisfying all 365 days of the year. Informal mixed borders, shrubberies, frog-filled water gardens, and container groupings cover the steep 2.3-acre hillside. It's a former orchard with a simple Victorian-era farmhouse and little outbuildings in Copake Falls, NY, set in Taconic State Park lands on a rural farm road. Tickets are timed in 2-hour increments (10-noon, noon-2, 2-4) to help with traffic flow; you are welcome at any time in that 2-hour window. **Adam Wheeler** will be at Margaret's

for the day. The event will benefit two local nonprofits, Hawthorne Valley Farmscape Ecology Program and Turtle Tree Seed at Camphill Village, and is one of many events that are part of The Workshop Experience Weekend.

Trade Secrets – Sunday, May 17th, Lakeville, CT

Time: 7:30 AM – 2 PM

Additional Info & Registration: <http://www.tradesecretsct.com/>

The 25th Rare Plant & Garden Antiques Sale is at their “new” venue for a fifth year - Lime Rock Park, Lakeville, CT. Trade Secrets proceeds will be used to fund Project SAGE (formerly called Women’s Support Services) education and counseling programs and to provide direct funds to help clients with legal fees, housing, transportation, and medical emergencies. An amazing cause with some amazing people, plants, and more.

Bedrock Gardens Rare and Unusual Plant Sale – Saturday, June 20th, Lee, NH

Time: 10 AM – 4PM

Additional Info & Registration: <https://www.bedrockgardens.org/>

Plant lovers will be wowed by the array of rare and unusual plants at this special event, and will head home with high-quality, hard-to-find plants grown by specialty nurseries from across New England. Join **Adam Wheeler** and celebrate the summer solstice by planting some rare and unusual plants in your home garden.
