**Broadleaf Evergreens**

**Arctostaphylos uva-ursi** - Bearberry - Zone 3 - Full Sun-Part Shade - Northern North America, Europe, and Asia
Bearberry is a wonderful, low growing evergreen groundcover native throughout much of North America. The foliage is lustrous dark green in summer and turns rich, reddish-bronze in fall and winter. In late summer and fall, plants are cloaked with an exceptional display of bright red, pea-sized fruit. Plants perform best in acidic sandy soils in full sun or partial shade. They also exhibit tremendous salt tolerance. - 1'I Tale, 3' Wide

**Buxus microphylla** - A common and reliable selection of boxwood long grown for its resistance to leaf blights and slow spreading framework. The rich green leaves are darker and a bit more refined than average seedlings and add attractive contrast to the pale pink blossoms. Selected from seedling raised plants collected along the coast of Massachusetts. - 1'Tall, 3' Wide - #1 $24.99

**Aucuba japonica** - Japanese Aucuba - Zone 6b - Part Shade-Shade - Japan
A fine broadleaf evergreen shrub known much more widely to southern gardeners where the species and its cultivars see much wider landscape cultivation. In recent years we've tried a few cultivars in the garden and have been surprised with the cold hardiness that many possess when grown in sheltered locations that are free from winter wind and prolonged exposure to drying sunlight. Plants develop a dense, oval framework of large, deep green leaves that provide year round interest. An abundance of small purple flowers provide an accent in spring followed by crops of red fruit in autumn on female plants when grown near male pollinators. Plants are easy to cultivate showing adaptability to a range of soil conditions. In our region, full shade and winter protection is required for success. - 6-10'Tall and Wide

‘Gold Dust’ - A striking and cold hardy female selection of Japanese aucuba best known for its deep green leaves that are set off with brilliant gold speckles and slower growth rate than the species. The show is quite unique and at times looks as if someone splatter painted the leaves in a dramatic fashion. - 5'Tall and Wide - #2 $39.99 • #3 $49.99 • #5 $69.99 (July)

**Berberis x frikartii** - Frikart’s Barberry - Zone 5 - Full Sun-Part Shade - Garden Hybrid
A cross between Berberis candidula and Berberis verruculosa, this non-invasive member of the barberry family features thorny, arching branches on a nicely mounded shape. The small, glossy, dark green leaves with rolled edges are evergreen, though a portion often turn red during cold weather for a beautiful visual contrast. Beautiful yellow flowers in spring and blue-black fruit in fall complete the seasonal interest, all in a deer resistant package. - 3‘Tall, 4’ Wide

‘Anstevenel’ - A durable and undereappreciated member of the barberry clan that has caught our full attention. The dwarf spreading plants boast evergreen, spine tipped leaves that are glossy deep green on the surface and bloomy white on the reverse. In spring, the arching armed stems display pale yellow blossoms. An excellent utility shrub or evergreen accent piece in mixed plantings. - 3‘Tall, 4’ Wide - #2 $39.99 (July)

**Buxus sempervirens** - Littleleaf Boxwood - Zone 5 - Full Sun-Part Shade - Japan, Taiwan
A compact species of this valuable group of evergreen shrubs. Plants are native to where they can obtain heights of 10-12’ in the wild. Under cultivation or with management, plants stay much more compact. As with all boxwood, plants are extremely durable and tolerant to pruning which makes them a leading candidate for hedging and foundation plantings. They offer high resistance to deer browse and will grow in both full sun and shade locations. - 10-12’Tall and Wide

‘Curly Locks’ - A unique littleleaf boxwood that offers curious coiled and curled stems that snake in all directions. Plants assume a mounded framework and add a bit of unexpected flair to this valuable but rather lackluster group. - 3-4’Tall and Wide - #2 $39.99 • #3 $49.99 (July)

**Buxus sinica var. insularis** - Common Boxwood - Zone 5 - Full Sun-Part Shade - Southern Europe, Northern Africa, Western Asia
An excellent, deer resistant, evergreen landscape plant used extensively in Europe and some parts of the United States. The slow growing plants respond well to pruning and are excellent for hedging or as an accent plant in both formal and informal plantings. - 10-12’ Tall and Wide

‘Aurea Pendula’ - Yup, you guessed it, a gold variegated weeping boxwood! Somewhat difficult to imagine yet we've enjoyed the plant in our gardens for a few years now. The vigorous specimens develop upright branches that arch over in irregular angles at the terminus. Both the leaves and stems are generously streaked and splashed with bright gold variegation. Untrimmed plants develop a unique style and grace and can easily reach 6-8’ in size with age. Excellent for evergreen accent and for spicing up the garden with a bit of fun. - 6-8’Tall and Wide - #2 $39.99 (July)

‘Borderline’ - Not your average boxwood! The deep green leaves gilded in gold impart an air of luxury. The plants are well behaved, even without trimming, though like most boxwoods they take exceptionally well to pruning. - 3‘Tall and Wide - #2 $39.99 (July)

‘Dee Runk’ - Reportedly resistant to both boxwood blight and boxwood leaf miner, this cultivar has a natural, narrow Christmas tree shape even without regular pruning. At only 2’ wide at maturity, ‘Dee Runk’ is a low maintenance, glossy evergreen accent for even the tightest spaces. - #2 $39.99 (July) • #3 $49.99 • #5 $69.99 (July)

‘Electantissima’ - A slow growing selection with cream-white variegated foliage. Appears to have good hardiness as our landscape specimen has withstood temperatures below zero with little if any leaf discoloration. - 5-6’Tall and Wide - #1 $24.99 • #2 $39.99 • #3 $49.99 (July)

Assorted Specimens Individually Priced

**Buxus sempervirens** - Littleleaf Boxwood - Zone 5 - Full Sun-Part Shade
- #1 $24.99 • #2 $39.99 • #3 $49.99 • #5 $69.99 (July)

**Unraveled’ - Why not try a weeping boxwood in the garden? We love plants that seem to break the mold and open up new possibilities. The arching framework of ‘Unraveled’ seems to do just that. Familiar deep green leaves grace the stems yet the plants refuse to take on the classic rounded structure. We’re enjoying it as an accent in the rock garden where the meandering stems provide interest amongst the rocks and needled evergreens. - 2’Tall, 5’ Wide - #2 $39.99 (July)

**Buxus sinica var. insularis** - Korean Boxwood - Zone 5 - Full Sun-Part Shade - Korea
Korean boxwood with fresh green, rosemary-like foliage packed along dense shrubby stems. As cool weather sets in, the leaves take on faint plum colors and slower growth rate than the species. The show is quite unique and at times looks as if someone splatter painted the leaves in a dramatic fashion. - 5’ Tale, 3’ Wide - #2 $39.99 • #3 $49.99 • #5 $69.99 (July)

**Buxus x ‘Green Mountain’** - Green Mountain Boxwood - Zone 5 - Full Sun-Part Shade - Garden Hybrid
A popular Buxus microphylla var. koreana x B. sempervirens hybrid that develops an upright pyramidal habit. Foliage is dark green and holds its coloration well in cold weather. - 5’Tall, 3’ Wide - #2 $39.99 • #3 $49.99 • #5 $69.99 (July)
Buxus x ‘Green Velvet’ Green Velvet Boxwood - Zone 5 - Full Sun-Part Shade - Garden Hybrid
A hybrid that offers a shapely, low-mounding habit and fine-textured leaves that maintain their dark green color throughout the winter. - 4’ Tall and Wide
#2 $39.99 • #3 $49.99 • #5 $69.99 (July)

Camellia x ‘April Dawn’ April Dawn Hybrid Camellia - Zone 6b - Part Shade-Shade - Garden Hybrid
One of the recently introduced, super cold hardy camellias that are starting to appear on the market. ‘April Dawn’ is a mid to late spring bloomer showing off elegant double blossoms with a white base color and irregular pink and rose streaks throughout. The strong growing, upright plants are evergreen with classic camellia leaves. - 8-10’ Tall and Wide - #2 $39.99 • #3 $49.99 (July) • #7 $99.99

NEW Camellia x ‘April Remembered’ April Remembered Hybrid Camellia - Zone 6b - Part Shade-Shade - Garden Hybrid
A very cold tolerant Ackerman hybrid camellia which has impressed many with its rich pink, semi-double flowers that emerge in mid autumn. Flowers are set against thick, deep green, leathery leaves on an upright, densely branched framework. - 8-10’ Tall and Wide - #2 $39.99 • #3 $49.99 (July) • #7 $99.99 (July)

Camellia x ‘Winter Snowman’ Winter Snowman Hybrid Camellia - Zone 6b - Part Shade-Shade - Garden Hybrid
Another super cold hardy camellia worth playing around with in the warmer parts of CT and further south. ‘Winter Snowman’ is an autumn blooming selection showing off pink-blushed buds that open to near white flowers. Each elegant flower is 2-3” in diameter with flat outer petals and a cluster of reduced inner petals known as an anemone flower structure. Glossy deep green leaves provide added appeal throughout the gardening year. - 8-10’ Tall and Wide
#2 $39.99 • #3 $49.99 (July) • #5 $79.99 • #7 $99.99 (July)

Gautheria procumbens Wintergreen - Zone 3 - Part Shade-Shade - Eastern United States
A tough, mat-forming, evergreen groundcover native throughout the eastern US. Thick, leathery, dark green leaves mingle with delicate pink-blushed, urn-shaped flowers in spring and rounded, scarlet berries in autumn. The fruit is edible offering the classic wintergreen taste. Best performance occurs in woodland settings in acidic soils that are rich in humus but freely draining. - Groundcover - #1 $24.99

Ilex aquifolium English Holly - Zone 6b - Full Sun-Part Shade - Europe, Northern Africa
A dense evergreen holly native to parts of Europe and northern Africa where it can approach tree-like proportions up to 40’. That said, plants are tolerant of extreme pruning and can be maintained much smaller. As a result, a long standing use has been for hedging and topiary. The deep green leaves are fun to look at yet tough to pet. They are beautifully glossy and edged with prominent spines. Female plants produce crops of attractive red fruit in autumn. Though numerous cultivars exist many are a bit tender for our region and require protection from excessive wind and winter sun. We’re playing around with a number of cultivars and hope to add diversity to our offerings as we figure out the best of the best. - 20-40’ Tall

‘Ron’s Variegated’ - An uncommon yet attractive selection of English holly that we initially purchased and sold as Osmanthus heterophyllus ‘Ron’s Variegated’. Though we really tried to convince ourselves it was an Osmanthus, the alternate leaves and a spring blooming quality soon led us to determine its proper identity. Fortunately, the plants are still very cool showing off deep green, spiny-margined foliage that is heavily splashed and speckled with white variegation! Plants are strong growing but certainly need protection from desiccating winds in our region. - 8-12’ Tall and Wide
#2 $34.99 (July) • #3 $49.99 • #5 $69.99 (July)
Ilex crenata  Japanese Holly - Zone 5 - Full Sun-Part Shade - China, Japan, Korea, Philippines, Taiwan
A highly functional, rounded evergreen shrub used frequently by landscape professionals. Plants are easy going, performing best in well-drained soils in full sun or part shade. Makes an excellent companion plant or backdrop for shower specimens. - 5-10' Tall and Wide

'Beehive' - A useful, rounded evergreen shrub forming a dense, compact, mounding plant with tiny, glossy green leaves. Plants were selected from more than 20,000 seedlings and demonstrate outstanding mite resistance and durability. Selected by Dr. Elwin Orton of Rutgers University. The name was coined from the original plant's resemblance to an old-fashioned conical beehive. - 4-5' Tall and Wide - #1 $24.99 • #2 $34.99 • #3 $49.99 (July)

'Drops of Gold' - PP 14420 - A broad spreading, gold foliage Japanese holly forming a larger specimen than many other golden forms. The versatile plants strut bright gold, cold resistant foliage in sunny locations. In shaded sites the leaves maintain an equally attractive yet subtle lime-green coloration. Excellent for use in the mixed border and valued for winter interest. - 4-5' Tall and Wide - #1 $24.99 • #2 $34.99 • #3 $49.99 (July)

'Dwarf Pagoda' - A choice, oddball holly for the plants of the world. Introduced by Dr. Elwin Orton of Rutgers University, 'Dwarf Pagoda' is an incredibly slow growing holly with the coolest tiny green leaves and congested growth. Plants muster up to an inch of growth a year forming a first class natural bonsai in time. Certainly a choice treasure for the rock garden or tiny garden nook. - 2-3' Tall - #2 $49.99 (July)

NEW 'Kufujin' - A fine variegated Japanese holly forming an upright, arching shrub that eventually spreads broader than tall. The colorful plants tout boldly colored leaves that welcome spring with bright yellow overtones before transitioning to green with pale yellow margins by summer. An excellent addition to the diversity of cultivars that comprise this well-known species. - 2' Tall, 3-4' Wide - #3 $49.99 • #5 $69.99 (July)

'Sky Pencil' - A unique, fastigate selection discovered on Mount Daisen in the wilds of Honshu, Japan. An excellent choice where a vertical accent is needed. May be slightly less cold hardy than the species. - 10' Tall, 2' Wide - #2 $34.99 • #3 $49.99 (July) • #5 $69.99 • #7 $99.99 (July)

'White Lights' - A 2020 Broken Arrow Nursery introduction discovered as a chance branch sport in a private garden in Rhode Island. The aptly named 'White Lights' turns on the color with rich-green foliage that is prominently marked with irregular streaks and swirls of white and cream variegation. The foliage pattern changes in quantity and pattern from leaf to leaf though the overall impact is quite impressive. In autumn, added appeal is brought on by deep, purple-black fruit, each whisked with pale accents that stand in stark contrast with the leaves. Plants are strong growing and resistant to scorch in sun-drenched exposure. - 5-6' Tall and Wide - #3 $49.99 • #5 $69.99 • #7 $99.99

Ilex glabra  Inkberry Holly - Zone 4 - Full Sun-Part Shade - Eastern North America
A rounded evergreen shrub frequently encountered in acidic wetlands throughout eastern North America. Leaves are lustrous dark green and retain their color well in the winter. Plants are amazingly adaptable and are suited for numerous landscape applications. - 6-8' Tall

'Shamrock' - A compact, rounded form with lustrous dark green leaves and good leaf spot resistance. Makes a handsome foundation plant or evergreen hedge. - 6' Tall and Wide - #2 $34.99 • #3 $49.99 • #5 $69.99 (July) • Assorted Specimens Individually Priced

Ilex opaca  American Holly - Zone 5 - Full Sun-Shade - Eastern and Midwestern United States
An attractive, slow growing evergreen tree reaching 30' at maturity. Native to shaded woodlands throughout much of the eastern United States. Many female selections offer a wonderful fruit display when grown in close proximity to a male pollinator. - 20-30' Tall, 10' Wide

'Bosley' - A robust and durable male American holly which showcases ample pollinating capacity for a diversity of female cultivars from a young age. The mid-green, spineless leaves are attractive through the year and add appeal to the formal, pyramidal framework of mature specimens. - 20-30' Tall, 10' Wide - #7 $129.99

'Bountiful' - A strong growing and pest resistant female selection of American holly known for its refined branching and classic conical framework. The deep red fruit are prolific and well displayed against the medium green leaves. - 20-30' Tall, 10' Wide - #7 $129.99

'Jersey Knight' - A male form of American holly offering lustrous green leaves on an upright pyramidal tree. - 20-30' Tall, 10' Wide - #2 $39.99 (July) • #7 $129.99

NEW 'Maryland Dwarf' - This unjustifiably rare form of holly is a standout in all the best ways. A tree that acts like a groundcover, this oldie-but-goodie offers dark-green, evergreen foliage accented with red fruit in autumn. Particularly good for those with heavy deer pressure, use cascading down a slope or anywhere you want people to stop and ask "what's that?" - 3' Tall, 10' Wide - #7 $129.99

'Satyr Hill' - A tremendous female cultivar of American holly sporting exceptional high-gloss greenery and prolific scarlet-red berries. The strong growing plants are well branched and show excellent fruit retention, often holding berries into early spring. The American Holly Society is well aware of this standout and recognized it as the 2003 Gene Eisenbeiss Holly of the Year! - 20-30' Tall, 10' Wide - #2 $39.99 (July) • Assorted Specimens Individually Priced

Ilex pedunculosa  Longstalk Holly - Zone 5 - Full Sun-Part Shade - China, Japan, Taiwan
A unique, underutilized species of holly that develops into an attractive, 15-20' evergreen tree. Female plants bear colorful, bright red, berry-like fruit on 1-2" pedicels. The evergreen foliage is lustrous dark green and quite un-holly like, resembling mountain laurel (Kalmia latifolia), or hibiscus. Plants are tolerant of both sunny and shaded exposures yet display the best flower and fruit development with increased exposure to light. Both male and female plants are required for fruit production. - 10-20' Tall, 10-15' Wide - #2 $39.99 • #3 $49.99 • #5 $69.99 (July)

'Frosty Morn' - A cool longstalk holly that we've been playing around with for a number of years. Foliage is daringly streaked and splashed with creamy-white variegation that looks especially attractive in autumn when set off against cherry-like red fruit. Plants are strong growing and a welcome addition to the diversity of evergreen hollies that behave admirably in the northeast. - 8-12' Tall (Guess) - #2 $39.99 • #3 $49.99 (July)

Ilex x 'Meschick'  Meschick Hybrid Holly - Zone 5 - Full Sun-Part Shade - Garden Hybrid
An upright conical holly with exquisite lustrous dark green leaves that complement the abundant crops of large red berries. The handsome plants are vigorous and develop a formal 15" tall x 6" wide form if left to their own devices. That said, plants are amenable to pruning and can be sculpted into beautiful hedges or maintained in foundation plantings. - 12-15' Tall, 6' Wide - #2 $39.99 • #3 $49.99 (July)

Ilex x meserveae  Meserve Hybrid Holly - Zone 5 - Full Sun-Part Shade - Garden Hybrid
An indispensable group of hybrid hollies resulting from crosses made between Ilex rugosa and I. aquifolium. Plants display lustrous, bluish-cast, evergreen foliage along sturdy stems. All respond nicely to pruning and can easily be maintained in many shapes and sizes. Both male and female plants are required for fruit production. - 10-15' Tall and Wide

'Blue Prince' - A classic and widely planted male selection boasting leathery, dark green leaves and a broad, dense habit. Durable, easy to grow and excellent for year long interest. - 8-10' Tall - #2 $39.99 • #3 $49.99 (July) • #5 $69.99 (July)

'Blue Princess' - The benchmark against which all other female selections are measured. Plants offer excellent blue-green foliage and brilliant, dark red fruit. Always popular and reliable. - 8-10' Tall - #2 $39.99 • #3 $49.99 (July) • #5 $69.99 (July)

'Honey Maid' - A striking female, variegated cultivar with blue-gray leaves splashed with cream and yellow highlights. The foliage is especially attractive in fall and winter when set off by crops of bright red fruit. An attractive and versatile addition to this highly regarded group of plants. - 6-8' Tall and Wide - #2 $34.99 • #3 $49.99 • #5 $69.99 (July) • Assorted Specimens Individually Priced

13 Broken Arrow Road, Hamden, CT 06518 • ph: 203-288-1026 • email: sales@brokenarrownursery.com

**Ilex x 'Rock Garden'**  Rock Garden Dwarf Holly - Zone 6 - Full Sun-Part Shade - Garden Hybrid

A cute, extremely slow growing holly that makes a wonderful addition to the rock garden. Exceptional dark green, thumb-sized foliage on a 1-2’ high and wide specimen. - 1-2’ Tall and Wide - #2 $39.99 (July)

**Ilex x 'Rutzan'**  - PP 14750 - Rutzan Hybrid Holly - Zone 5 - Full Sun-Part Shade - Garden Hybrid

An incredible female hybrid holly selection from the Rutgers University breeding program that has been a standout in our garden in recent years. The moderate growing plants develop an outstanding formal conical pyramidal framework of deep green, glossy leaves. In autumn, colorful cherry-red fruit provide seasonal accent. Plants require little pruning to maintain good branch structure and should prove to be an outstanding hedging choice or evergreen accent.

10’ Tall, 5’ Wide - #3 $49.99 • #5 $69.99 • #7 $99.99 (July)

**Illicium floridanum**  Florida Anise Tree - Zone 6 - Part Shade-Shade - Southeastern North America

The Florida anise tree is a fine medium sized evergreen shrub that is unjustly rare in the Northeast due to the notion that they are not cold hardy. Plants are native to regions in the southeastern US as well as adjacent regions in Mexico and are worth re-visiting for use in warmer portions of CT and other zone 6 locations. The low maintenance plants show strong deer resistance and form well-branched clumps with the same attractive leaf and flower form as the species. Medium green, evergreen leaves are leathery and are pleasantly fragrant when brushed with a scent comparable to the anise spice. Unique 1.5” rich red blossoms with many petals grace plants in spring adding a touch of fresh garden accent. For success in colder regions plants are best sited in the shadows of overstory evergreens in areas where exposure from wind and winter sun is limited. Best performance will be found with evenly moist soils and rich fertility. - 6-8’ Tall and Wide

**NEW ‘Swamp Hobbit’**  - A super cool dwarf selection of Illicium sporting normal-sized leaves on a tidy rounded framework. In spring a prolific show of burgundy-red flowers add quite a bit of zip to the woodland garden. As with the species plants are best sited under evergreen ground cover. - 2’ Tall, 3’ Wide

#3 $59.99 • #5 $79.99 (July)

**Kalmia angustifolia**  Sheep Laurel - Zone 1 - Full Sun-Part Shade - Eastern North America

A super hardy evergreen shrub that forms a low-growing rounded form 1-3’ high and wide. Plants occur naturally in bogs and swamps as well as in open woods and pastures. Foliage is blue-green in color and is complemented by purple-pink flowers in late May and early June. Added interest is provided by their beautiful glossy dark green foliage. In the landscape, plants grow in full sun or partial shade in moist, well-drained, acidic soil. - 2-3’ Tall and Wide

‘Hammonasset’  - Selected and introduced by Broken Arrow founder Richard Janes from a native stand in Madison, CT. Plants are consistently high quality and offer rich, blush-rose flowers. - 2-3’ Tall and Wide - #1 $24.99

**Kalmia latifolia**  Mountain Laurel - Zone 5 - Full Sun-Part Shade - Eastern North America

This exceptional state flower of both Connecticut and Pennsylvania is frequently referred to as one of the most beautiful of all flowering plants. Native throughout eastern North America, they are commonly found growing along roadways and power lines or in shaded, acidic woodlands. Wild plants typically showcase an eye-catching display of pale pink flowers in late May and early June. Added interest is provided by their beautiful glossy dark green foliage. In the landscape, plants grow best in full sun or partial shade in moist, well-drained, acidic soil. - 6-8’ Tall and Wide

(Broken Arrow Little Leaf Pink Flower Strain)  - This seedling strain combines rich-pink budded flowers, half sized leaves, and a compact habit. The dense plants can be expected to mature about half the size of the standard species. Overall the flowers and plant qualities are reminiscent of the classic selections ‘Tinkerbell’ and ‘Tiddlywinks’. - 5-7’ Tall and Wide - Assorted Specimens Individually Priced

(Broken Arrow Pink Flower Strain)  - Standard-sized plants that combine classic leaf shape with saturated pink floral buds. When open, the flowers remain pink but turn a slightly paler shade lighter in tone. Overall qualities are like the classic selections ‘Bridesmaid’, ‘Pink Charm’ and ‘Sharon Rose’. - 6-8’ Tall and Wide - Assorted Specimens Individually Priced

(Broken Arrow Red Bud Strain)  - This select strain brings together saturated scarlet-red floral buds with a full-sized classic plant. The evergreen leaves are of standard size making a pleasant foil for the display. When open, the paler tones of the flowers make a welcome contrast to the intense buds. Overall plants offer similar qualities to the Broken Arrow named selections ‘Carol’ and ‘Firecracker’. - 6-8’ Tall and Wide

**Assorted Specimens Individually Priced**

(Broken Arrow White Star-Flowered Shape Flower Strain)  - This excellent seedling strain represents plants with pure white flowers. Each blossom is divided into five distinct lobes that lend a star-like appearance similar to the classic selection ‘Shooting Star’. Plants have full sized foliage like the classic native species. - 6-8’ Tall and Wide - Assorted Specimens Individually Priced

(Wild Type)  - Seedling grown plants that closely resemble those found in wild populations. Flowers are a mix of pastel pink and white.

6-10’ Tall and Wide - Assorted Specimens Individually Priced

‘Carol’  - Bright, intense red buds contrast well with the near white, newly opened corollas. Open flowers darken to pink as they age. The low growers have broad, leaf spot resistant foliage. - 6-10’ Tall and Wide - #3 $69.99 • #5 $89.99 (July)

‘Carousel’  - Flowers are banded with an intricate pattern of bright, purplish-cinnamon on the inside of the corolla. Plants grow rapidly and will develop a fairly dense habit of pruned frequency - 5-7’ Tall and Wide - Assorted Specimens Individually Priced

‘Elf’  - A slow growing little leaf laurel that develops into a small stature plant with considerable charm and grace. Flowers are similar to the wild type with light pink buds that open near white. The original cross was made in 1976 by caging six miniature laurels with a bumblebee. - 4-5’ Tall and Wide

#2 $39.99 • #3 $69.99 (July)  - Assorted Specimens Individually Priced

‘Firecracker’  - The result of five generations of breeding at Broken Arrow Nursery. Notable parentage includes the Kalmia selections ‘Carol’, ‘Sharon Rose’, and ‘Sarah’. Plants offer brilliant, deep red flower buds that open near white and age to pale pink. The overall effect is a striking, bi-color display of red-budded and white open flowers. This floral effect, combined with the glossy, dark green foliage and excellent disease resistance make it a promising alternative to ‘Olympic Fire’ and other red-budded cultivars. - 5-7’ Tall and Wide - #2 $39.99 • #3 $69.99 (July)  - Assorted Specimens Individually Priced

‘Forever Red’  - An exciting new selection of mountain laurel that showcases intense red flower buds backed by deep green, glossy foliage. The flower buds develop approximately a week later than the straight species and never fully open. Since the buds never open the pollination/fertilization process doesn’t progress normally and no stimulus is generated to trigger the flowers to senesce. As a result the flower buds persist and remain ornamentally attractive far longer than other standard forms. It is not uncommon for this breakthrough selection to display color into early July, far beyond the typical bloom period for the species. - 5-7’ Tall and Wide - #2 $39.99 • #3 $69.99 (July)

‘Freckles’  - An older, compact-spaying selection with white flowers each marked with ten purplish-cinnamon "freckles". Plants show medium leaf spot resistance and flower nicely from a young age. - 5-7’ Tall and Wide - Assorted Specimens Individually Priced

‘Goodshow’  - A pale pink flowered selection boasting rich green foliage and exceptional vigor. Plants are among the fastest growing of the Kalmia selections we’ve seen making it an excellent choice for screening in part shade. - 6-10’ Tall and Wide - Assorted Specimens Individually Priced

‘Keepsake’  - A recent introduction that is the result of five generations of controlled crosses begun in 1966. Plants display striking raspberry-red flower buds that open to near-solid purplish burgundy flowers with a fine white edge. Flowers are backed by pest free, glossy, bluish-green leaves. - 5-7’ Tall and Wide

#2 $39.99 • #3 $69.99 • #5 $89.99 (July)  - Assorted Specimens Individually Priced

‘Minuet’  - A distinctive, vigorous miniature laurel with pink buds that open to bright crimson-maroon banded flowers. The small leaves are lustrous dark green and recurve from petiole to tip. Plants display excellent branch structure and a compact-rounded form. - 4-5’ Tall and Wide

#2 $39.99 • #3 $69.99 • #5 $89.99 (July)  - Assorted Specimens Individually Priced

50  www.brokenarrownursery.com
‘Nathan Hale’- An attractive cultivar selected by the Nathan Hale Society of the Sons of the American Revolution to honor Connecticut’s Revolutionary War hero, Nathan Hale. Plants have a symmetrical and compact habit and perform well in the garden. Their dense, dark green leaves are disease free and provide a fine backdrop for the red buds and white flowers. - 5-7’ Tall and Wide - Assorted Specimens Individually Priced

‘Peppermint’- The bluish-pink flower buds open to display striking near-white flowers with a unique maroon-red pattern that resembles a peppermint candy. Winner of the Ames Award at the 1991 Boston Flower Show. - 5-7’ Tall and Wide

#2 $39.99 • #3 $69.99 (July) • Assorted Specimens Individually Priced

‘Sarah’- An eye-catching selection with dark red buds that open vibrant pink-red. Our exceptional specimen plant always impresses visitors when in flower. The foliage is dark green and free from disease when grown in the open with some air circulation. Always in high demand! - 5-7’ Tall and Wide

#2 $39.99 • #3 $69.99 (July) • Assorted Specimens Individually Priced

NEW ‘Show Time’- An outstanding recent Broken Arrow selection known for its oversized, 1.5”, richly colored flowers that are among the largest the genus has to offer. The flowers are deep pink in bud, opening to rich pink with a strongly lobed corolla. At 20 years the original plant was 5’ tall and wide with impressive clean, dark green foliage. It was derived from a series of five crosses begun in 1969 with the notable classic selections ‘Pink Surprise’ and ‘Sarah’ in the parentage. - 5-7’ Tall and Wide - #3 $69.99 • #5 $89.99 (July) • Assorted Specimens Individually Priced

‘Starburst’- A little leaf laurel with a bright full cinnamon-maroon band on a pronounced and distinctive star-shaped flower. The foliage is clean and glossy, dark green, held on a framework that is more spreading than the somewhat similar selection ‘Minuet’. After 25 years of evaluation the original plant reached 5.5’ tall and 6’ wide. This Broken Arrow Nursery introduction was derived from parentage that included ‘Bristol’ and a little leaf sibling to the classic ‘Elf’. Through the years it has received many favorable comments from visitors to the collection. - 5-7’ Tall and Wide - #3 $69.99 • #5 $89.99 (July)

‘Tinkerbell’- A little leaf laurel with heavy textured flowers that are deep pink in bud and medium pink in flower. Foliage is dark green and resistant to leaf spot. Plants show good vigor and will mature somewhat broader than tall. - 4-5’ Tall and Wide

#2 $39.99 • #3 $69.99 (July) • Assorted Specimens Individually Priced

Leucothoe fontanesiana Drooping Leucothoe - Zone 5 - Part Shade-Shade - Mid-Atlantic United States

An attractive graceful, arching broadleaf evergreen shrub very closely related to Leucothoe axillaris. Foliage is lustrous dark green during the growing season and often takes on a bronze-purple cast during cooler weather. Plants grow best in moist, acid soils in a shaded site. - 3-4’ Tall and Wide

‘Compacta’- A smaller growing form with beautiful glossy foliage in spring. Leaves turn bright burgundy in winter. - 3-4’ Tall and Wide

#2 $34.99 • #3 $49.99

‘Silver Run’- An exceptional variegated form of drooping leucothoe with leaves that are a stunning mixture of white, pink and green. A great choice to brighten a shaded corner. - 3-4’ Tall and Wide - #2 $34.99 • #3 $49.99

Leucothoe x ‘Sparkle’ Sparkle Hybrid Leucothoe - Zone 5 - Part Shade-Shade - Garden Hybrid

A breathtaking selection offering top rate variegation. Each leaf is daringly edged with a bold white margin that catches the eye from afar. With cold temperatures, the leaves become tinged with pinkish-purple tones that add a valuable color accent at a wearisome time of year. The compact, mounded plants have graceful arching branches and will be notably slower growing than their green leaf peers. Protection from wind and winter sun is key to success with this glitzier evergreen. - 2-3’ Tall and Wide - #1 $29.99 • #2 $39.99

Mahonia japonica Mahonia - Zone 6 - Part Shade-Shade - China and Japan

Another intriguing mahonia crowned with graceful, swooping racemes of fragrant yellow flowers in late winter to early spring. Blossoms are followed by a bounty of grape-like blue fruit. The bold textured 18” leaves are spiky, leathery and evergreen, often taking on reddish purple tints in cold weather for a little extra winter warmth. - 5-8’ Tall and Wide - #3 $49.99 • #5 $69.99 (July)

Mahonia x media Hybrid Mahonia - Zone 6b - Part Shade-Shade - Garden Hybrid

A breathtaking interspecific hybrid that blends parentage from Mahonia lomariifolia and M. japonica to form an impressive year-round interest plant. Bold textured evergreen leaves yield a fine stage for early winter’s cheery yellow flowers held in upright racemes. Crops of blue fruit add additional appeal, especially with the recognition that the plants are also resistant to deer browse. How does one use a Mahonia? Try it at the back of a mixed border or as an accent element in the woodland garden. As with many broadleaf evergreens protection from the exposure of drying winds and sun during cold months is important for performance in our climate. - 8-15’ Tall and Wide

‘Arthur Menzies’- A hybrid selection of mahonia that was discovered as a chance seedling in 1961 in Seattle’s Washington Park Arboretum. The decidedly upright plants offer interesting evergreen accent with bold textured, 10-15” spine-tipped, evergreen leaves on display throughout the gardening year. In late winter, airy inflorescences of yellow, bell-shaped blossoms appear at the tops of stems. Individual blossoms are small though each cluster can measure as much as 10” x 10” in size. Plants are marginally hardy at best in CT and are only worth trying for those with sheltered locations in the warmest regions. Protection from excess wind and sun during winter will be critical for success. Alternately, plants can be successfully cultivated as container specimens that are ferried in and out of the basement, sunroom or the like during winter. - 8-12’ Tall and Wide - #2 $34.99 (July)
**Osmanthus heterophyllus**  
Holly Osmanthus - Zone 6 - Part Shade - Japan, Taiwan

A dense, oval, evergreen shrub reaches a medium stature of 10-15' in height. The deep green leaves are attractive year round and resemble a holly (Ilex sp.) at first glance. In our region best growth occurs in a fertile, well-drained soil that is protected from exposure and direct sun. - 10-15' Tall and Wide

'Koebon' - A fine addition to the palette of holly osmanthus currently available. The Japanese word 'Koebon' loosely translates to "dawn" which refers to the early spring growth that emerges brushed with heavy creamy and white tones. As the growing season progresses the spine-tipped leaves add green tones to the mix. Plants average 2-3' of growth annually. - 4-5' Tall and Wide - #2 $34.99 • #3 $49.99 • #5 $69.99 (July)

'Goshiki' - The foliage of this holly osmanthus is brilliantly blotched and streaked with golden-yellow variegation. Plants are slow growing and make unique specimen shrubs or hedging plants. Best when sited in a location that is protected from desiccating winter winds. - 6-10' Tall and Wide - #2 $34.99 • #3 $49.99 • #5 $69.99 (July)

'Koari Hime' - Osmanthus 'Koari Hime' is the smallest of the holly osmanthus that we've seen. Each nickel-sized, rich green leaf is strongly margined with serrations held along jam-packed stems. Profuse white blossoms add a strong contrast and equally impressive fragrance in autumn. Very cool! - 3-4' Tall and Wide - #2 $34.99 • #3 $49.99 • #5 $69.99 (July)

'Ogon' - A rare selection of holly osmanthus sporting flashy golden-yellow foliage. The slow growing plants develop a broad-spreading habit reaching 5' high and 7' wide over many years. Plants perform best in bright shade that provides protection from winter's desiccating winds and scalding sun. - 5' Tall, 7' Wide - #2 $39.99 • #3 $59.99 • #5 $89.99 (July)

'Purpureus' - Hard to beat this holly osmanthus in spring when the leaves emerge a sinister blackish-purple. Dirr notes that the leaves appear as if they were dipped in tar at this time of year. Though this may seem a bit unpleasant, we can't get enough of these foliage colors and find great value in a dark backdrop to show off the vibrant flower colors of accompanying plants in spring. As the season progresses the leaves transform to the familiar green of the straight species. Plants are strong growing and can develop into rounded 10' shrubs with age. A sunny exposure is required for the best spring colors to develop. - 6-10' Tall and Wide - #7 $99.99 • Assorted Specimens Individually Priced

'Rotundifolius' - A very small, glossy dark green leaves are touchably smooth without the typical spines of the species. Plant near a deck or sitting area for maximum enjoyment of the fragrant white flowers that cover the shrub in autumn! - 6-10' Tall and Wide - #3 $49.99 • #5 $69.99 (July)

'Sasaba' - A standout holly osmanthus well-armed with deep-green leaves edged with stout, spinose margins. Yes, plants are not great for touchy-feely qualities and thankfully this means they're unappealing to deer as well. We find the textural qualities of these dense evergreens add unique drama and contrast to surrounding plants. Additionally, fall's opening of abundant super tiny yet remarkably fragrant blossoms is always a treat! - 10-15' Tall - #2 $34.99 • #3 $49.99 (July)

'Shibei' - An exceptional breakthrough in this underutilized group that welcomes spring with a vibrant flush of pink, cream and chartreuse new growth. The captivating evolutes toward deep green as spring progresses yet the peak color moments are nothing short of magic. - 4-5' Tall and Wide #3 $49.99 • #5 $69.99 (July)

**Pieris japonica**  
Japanese Pieris - Zone 5 - Full Sun-Part Shade - Eastern China, Japan, Taiwan

A highly variable broadleaf evergreen shrub closely related to our native Pieris floribunda. In March and April plants drip with elegant, drooping panicles of bell-shaped flowers that range in color from snow-white to dark rose-red. Plants perform admirably in moist, acidic, well-drained locations and benefit from some high canopy shade. Additionally, all show excellent resistance to deer browse! - 6-10' Tall and Wide

'Bert Chandler' - By far the most colorful and among the rarest of the selections of Japanese pieris that we grow. In the garden, plants demand constant attention as the foliage is in constant flux, transitioning from salmon-pink to creamy-white and pale green throughout the growing season. Pendulous clusters of white, lily-of-the-valley-like flowers provide added prominence in early spring. Plants are slower growing than the straight species yet still add a respectable 3-4' of growth annually along dense branching. - 4-6' Tall and Wide - #2 $44.99 • #3 $59.99 (July)

'Bonsai' - A minute selection of Japanese pieris boasting half-sized leaves that are a step apart from the familiar form of the straight species. Plants are quite a bit slower growing than average reaching only 2' tall when mature. Excellent in tight garden spaces such as a shaded rockery or border edge. - 2' Tall and Wide - #2 $39.99

'Cavatine' - A dense, slow-growing selection with dark green foliage and small white flower clusters. Exhibits exceptional hardiness. - 4-6' Tall and Wide #2 $39.99 • #3 $59.99 (July)

'Dorothy Wycoff' - A classic form offering striking dark maroon flower buds that open to whitish-pink flowers against dark green leaves. Plants are top performers for the group and we can't keep them in stock when they flower! - 6-10' Tall and Wide - #3 $59.99 • #5 $89.99 (July)

'Katsura' - PP 15452 - A long anticipated Japanese pieris that develops a wonderful show of blush-pink flowers in April. Soon after this display is complete the interest continues with a startling display of new growth that emerges in deep burgundy to wine-red tones. This coloration lingers for an extended time before turning rich, lacquered green by mid to late summer. 'Katsura' is by far the best cultivar we've seen for dark emerging foliage coloration and should rank way up there on most people's "to get" lists. - 6-10' Tall and Wide - #2 $39.99 • #3 $59.99 • #5 $89.99 (July)

'Little Heath' - A delightful, slow-growing cultivar with unique, cream-edged foliage. Shy to flower yet worth growing for the foliage quality alone. One of our favorites among all of the broadleaf evergreens! - 3-4' Tall and Wide - #1 $24.99 • #2 $39.99
Rhododendron x 'Jenny Tabol' - A hybrid between Pieris japonica and P. floribunda but listed here for ease of classification. Develops abundant, slightly drooping white flowers set off by glossy, dark green foliage. - 6' Tall and Wide - #3 $59.99 • #5 $89.99 (July)

Polygala chamaebuxus - Chapparal Pea - Zone 6 - Part Shade-Shade - Central and Western Europe
This adorably diminutive alpine shrub features tiny evergreen leaves and pea-like cream-to-yellow flowers spread over a low dense mat in early spring. Performance will be best in cool and moist locations with well-drained soil in high, dappled shade, though the species will tolerate full sun as long as there's ample moisture available. Ideal as a living mulch, for rock gardens, and for making your gardening friends ask "what's that?". - 1' Tall, 2' Wide

Kamniski - A diminutive, extremely uncommon evergreen shrub that develops a slow-spreading habit with stems cloaked with narrow deep green leaves that bear close resemblance to boxwood. In spring, abundant, pea-like blossoms add contrast and interest. Flowers are bicolor, combining saturated purple upper petals with bright yellow lower petals. Plants perform best when grown in the dappled shade provided by a high canopy. Fertile, well-drained soil with acidic properties is important for success. - 1' Tall, 2' Wide - #1 $24.99

Prunus laurocerasus - Cherry Laurel - Zone 6 - Part Shade-Shade - Southeastern Europe, Asia Minor
This cherry relative offers some of the most desirable attributes of the genus with less impact from the diseases and pests that tend to plague many of its relatives. The evergreen shrubs are capable of reaching as much as 20' wide and 12' tall, boasting dense, bold, glossy dark green leaves. In early summer, tiny white flowers with a heady fragrance are borne in impressive 5" long racemes. Plants perform best when grown in the dappled shade provided by a high canopy. Fertile, well-drained soil with acidic properties is important for success. - 1' Tall, 2' Wide - #1 $24.99 • #2 $34.99 (July)

Rhododendron macrosepulum - Macrosepulum Evergreen Azalea - Zone 5 - Part Shade-Shade - Japan
A compact evergreen azalea offering up flowers that range from near white to saturated magenta-pink. Plants are native to wild regions in Honshu and Shikoku Japan. The straight species is uncommon in cultivation though several noteworthy and fun selections make the rounds. Plants display the classic cultural needs of many members of the genus showing best performance in acid soils with protection from excessive winds. - 4-6' Tall and Wide

Koromo Shikibu - A very unusual azalea with bright lavender blooms composed of delicate, elongated, narrow petals. Pale green, decidedly narrow foliage is covered with fuzzy-wuzzyness creating a fun contrast with the May floral display. - 3-4' Tall, 5' Wide - #2 $39.99 • #3 $59.99 • #5 $99.99 (July)

Rhododendron x 'Bixby' - Bixby Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
An evergreen azalea with dark green rounded foliage that turns rich mahogany-red in fall and winter. Develops a dramatic display of dark red flowers in May. Excellent compact, moundng habit. - 2' Tall, 3' Wide - #2 $39.99 • #3 $59.99 (July)

Rhododendron x 'Blue Baron' - Blue Baron Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
Small, lustrous green leaves provide a wonderful complement to the striking, near-blue flowers in May. Foliage takes on handsome bronze overtones during cool months. Benefits from some wind and sun protection in winter. - 3' Tall, 4' Wide - #2 $39.99 • #3 $59.99 • #5 $89.99 (July)

Rhododendron x 'Calsap' - Calsap Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
An especially attractive cultivar that has always held a prominent spot on our list of favorites. The well formed trusses sport showy white flowers each highlighted with a wine-purple flare. Plants are vigorous and tend to be somewhat upright when mature. - 6' Tall, 4' Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

Rhododendron x 'Capistrano' - Capistrano Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A floriferous hybrid showcasing ample pale yellow flowers set off by deep green foliage. Plants have a round-spreading habit and are excellent for use on the foundation or in the shaded border. - 5' Tall, 6' Wide - #3 $59.99 • #5 $89.99 (July)

Rhododendron x 'Chionoides' - Chionoides Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
A R. ponticum hybrid noted for its excellent, broad, dense habit. Clean, narrow, dark green leaves provide the perfect backdrop for trusses of bright white flowers with yellow centers in late May. - 5' Tall, 6' Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

Rhododendron x 'Dark Lord' - Dark Lord Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A new dark, burgundy-red hybrid that has arrived at our doorstep with the high recommendation from several noted nurserymen. The initial plant was raised by the famed Weston Nursery where it obtained a height of 8' and spread of 12' after many years. Each blossom is ruffled and held in a full truss against deep lighted with a wine-purple flare. Plants are vigorous and tend to be somewhat upright when mature. - 8' Tall, 12' Wide - #2 $39.99 • #3 $59.99 (July)

Rhododendron x 'Delaware Valley White' - Delaware Valley White Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
A tightly branched evergreen azalea that has proven to be a strong grower with dependable bloom and cold hardiness. Plants draw much attention in May with their breathtaking display of satin white flowers that practically overlap one another like shingles on a roof. - 3' Tall, 5' Wide - #3 $59.99 • #5 $89.99 (July)

Rhododendron x 'Hoopla' - Hoopla Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A fine cold hardy hybrid developed and introduced by the University of Connecticut. Large trusses blend an ornate combination of pink, yellow and peach tones to deliver an amazing show in April-May. The larger growing plants are vigorous and well suited for evergreen accent when the classic cultural requirements of the genus are met. - 6-8' Tall and Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

Rhododendron x 'Jenny Tabol' - Jenny Tabol Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
A delightful, compact rhododendron showcasing light yellow flowers highlighted with pink accents. Blossoms appear in mid-May amongst medium green, long-pointed leaves. - 3-4' Tall and Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

13 Broken Arrow Road, Hamden, CT 06518 • ph: 203-288-1026 • email: sales@brokenarrownursery.com

NEW Rhododendron x 'Hoopla' - Hoopla Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A fine cold hardy hybrid developed and introduced by the University of Connecticut. Large trusses blend an ornate combination of pink, yellow and peach tones to deliver an amazing show in April-May. The larger growing plants are vigorous and well suited for evergreen accent when the classic cultural requirements of the genus are met. - 6-8' Tall and Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

NEW Rhododendron x 'Hoopla' - Hoopla Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A fine cold hardy hybrid developed and introduced by the University of Connecticut. Large trusses blend an ornate combination of pink, yellow and peach tones to deliver an amazing show in April-May. The larger growing plants are vigorous and well suited for evergreen accent when the classic cultural requirements of the genus are met. - 6-8' Tall and Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

13 Broken Arrow Road, Hamden, CT 06518 • ph: 203-288-1026 • email: sales@brokenarrownursery.com
Rhododendron x 'Lorna'  Lorna Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A double, hose-in-hose azalea with deep purple-pink, funnel-shaped flowers. The evergreen leaves are approximately 2" long with an attractive light green coloration. Plants are compact growers, forming a tidy mounded habit. - 3-4' Tall and Wide - #2 $39.99 • #3 $59.99 (July)

Rhododendron x ‘Midnight Ruby’  Midnight Ruby Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A small leaf selection displaying a wealth of reddish-lavender flowers in late April and early May. Rich purple-black foliage color provides added appeal during the winter. - 6-8' Tall - #3 $59.99 • #5 $89.99 (July)

Rhododendron x ‘Polarnacht’  Polarnacht Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
A low, compact spreading rhody reaching 4" tall and 5-6' in width. Each year as Mother’s Day approaches plants erupt with a brilliant display of heavily frilled dark purple blossoms. Highly valuable for flower color and a welcome option for garden spaces where height is limiting. - 4' Tall, 5-6' Wide #2 $39.99 • #3 $59.99 (July)

Rhododendron x ‘Slam Dunk’  Slam Dunk Rhododendron - Zone 4 - Part Shade-Shade - Garden Hybrid
Named as a celebratory ode to the championship UConn basketball teams, this introduction from the University of Connecticut is certainly a winner! Masses of flowers in rich claret-purple with a black splochet deep inside cover the plants in mid-spring against matte green leaves. Plants function nicely as an evergreen accent or hedging option. - 5-7' Tall and Wide - Assorted Specimens Individually Priced

Rhododendron x ‘Solidarity’  Solidarity Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
An exceptional selection made by the late Hank Schannen of Rare Find Nursery. Plants display large frilly flowers that emerge dark pink and age to white. Large, evergreen leaves are deep green and heavily textured on a compact, spreading plant. One of our favorites! - 4' Tall, 5-6' Wide #2 $39.99 • #3 $59.99 (July) • #7 $99.99 • Assorted Specimens Individually Priced

Rhododendron x ‘Stewartstowniana’  Stewartstownian Rhododendron - Zone 6 - Part Shade-Shade - Garden Hybrid
A classic evergreen azalea developed and introduced by the late Joseph Gable of Stewartstown, PA. Plants form a dense, spreading framework reaching 4' high and 6 wide with age. In late April and early May plants show off masses of bright reddish-orange flowers which cover the specimens from head to toe. The small, thumb-sized leaves are glossy deep green during the growing season and pick up rich purple hues during cold weather. - 4' Tall, 5-6' Wide #3 $59.99 • #5 $89.99 (July)

NEW  Rhododendron x ‘Susan Oliver’  Susan Oliver Rhododendron - Zone 5 - Part Shade-Shade - Garden Hybrid
A compact small leaf rhody derived from Rhododendron nakaharae and known for forming a spreading, nearly prostrate framework. The uniquely versatile plants show high gloss leaves and bloom in late spring with large, very pretty, semi-double, pale-pink flowers. Plants are fun to integrate into the garden with creativity in ways that few consider for this genus. - 1' Tall, 3' Wide - #2 $39.99 • #3 $59.99 (July)

Rhododendron yakushimanum  Yaku Rhododendron - Zone 5 - Part Shade-Shade - Japan
A dense, mound-erogeneous rhododendron used frequently as a breeding parent. As a result numerous exceptional hybrids have been made using its highly desirable genetic traits. - 5-6' Tall and Wide
‘Gold Prinz’ - A fine rhododendron offering up high gloss rich green leaves that set off attractive rich yellow blooms. Each blossom is highlighted with a russet speckled flare. - 5-6' Tall and Wide - #2 $39.99 • #3 $59.99 (July)

‘Ken Janecz’- A great selection honored with the American Rhododendron Society’s Award of Excellence. Offers rich pink flower buds that open to large, pink-flushed flowers that slowly fade to white. The dark green leaves are coated with heavy indumentum and emerge silver-gray in spring. - 3-5' Tall and Wide - #2 $39.99 • #3 $59.99 (July)

‘Percy Wiseman’ - A fine selection showcasing creamy-white, funnel-shaped flowers each flushed with pastel, peachy-pink overtones. Flowers are held in rounded trusses that stand out well from the leathery, green foliage. - 3-5' Tall and Wide - #2 $39.99 • #3 $59.99 (July) • #7 $99.99

Rhododendron yedoense var. poukhanense  Korean Azalea - Zone 5 - Part Shade-Shade - Korea
A dense, rounded shrub reaching 6' tall at maturity. Medium green leaves are narrow-oval in shape and are excellent in contrast with the pale lilac blossoms. Individual flowers are broad and pleasantly fragrant, occurring in clusters of 2-4 with peak bloom in early to mid spring. - 5-6' Tall and Wide
‘Compacta’ - As you might guess ‘Compacta’ is a smaller version of this remarkable species. Plants offer the same floral qualities but in a smaller package. - 3' Tall, 4' Wide - #2 $39.99 • #3 $59.99 • #7 $99.99

Sarcococca hookeriana var. humilis  Sweetbox - Zone 6 - Part Shade-Shade - Western China
A fine, evergreen, groundcovering plant useful for its low-growing, compact habit and narrow, deep green leaves. Abundant 1” clusters of sweetly fragrant, white flowers provide seasonal appeal in spring. An excellent, fresh alternative to overused vinca and pachysandra with similar cultural needs. Plants are both deer and disease resistant and are worthy of much wider landscape consideration. - 1-2' Tall, 3' Wide
‘Sarsid1’ - PP 19942 - One of several patented selections that have emerged on the market in recent years. The mound-spreading plants offer many of the virtues of the straight species with the addition of larger, narrow leaves that accompany especially fragrant blooms. Plants are strong growing, developing a consistent, dense framework. - 1-2' Tall, 3' Wide - #1 $24.99 • #2 $34.99 (July)

Skimmia japonica  Japanese Skimmia - Zone 6 - Part Shade-Shade - China, Japan
A versatile, low-growing evergreen sub-shrub best utilized in the shade garden. Shimmering, dark green oblong leaves cloak the dense spreading plants. Females produce crops of bright, cherry-red berries held in tight clusters above the foliage. A versatile plant and certainly one of the finer evergreen groundcovers available. - 2' Tall, 3' Wide - #1 $24.99 • #2 $34.99

Trochodendron aralioides  Wheel Tree - Zone 6b - Part Shade-Shade - Japan, Korea, Taiwan
A slow growing, broad spreading shrub or small tree with distinctive horizontal branching. The rich, glossy green leaves have an ovate shape, medium texture and thick, heavy substance. New growth in spring often emerges with a burgundy blush allowing the plants to stand out from surrounding greenery. Uniquely formed bright green flowers have a distinctive wheel shape complete with "spike spokes". Flowers are clustered in upright racemes and mingle amongst the leaves in late spring. In our region, plants require shaded locations free of drying sun and wind. - 15' Tall - #6 $149.99 • #7 $179.99 (July)
