What is a Native Plant?

Native plants are plants endemic (indigenous) to a given area in geologic time. This includes plants that have developed, occur naturally, or existed for many years in an area

A selection of my “current” favorite native plants and their cultivars

Acer pensylvanicum
striped maple, moosewood,
snake bark maple

'Erythrocladum'

Acer rubrum
red maple

'Brandywine'

'Hillside Winter Gold'

'Little Giant'

'Mini Twists'

'Pendula'

Rhus typhina – staghorn sumac

'Tiger Eyes'

Sassafras albidum - sassafras

SASSAFRAS ROOT CHIPS

SASSAFRAS ROOT is best known as a flavour in root beer, but is also widely believed to have the power to bring about **Good Fortune in Money Matters**, particularly through **Business Success** and the steady **Increase of Wealth**. Folks who want to control their money, make it go farther, and last longer tell us that they sprinkle a pinch of **SASSAFRAS ROOT** in their wallet or purse where it will come into contact with their cash. Others blend **SASSAFRAS** with **IRISH MOSS** and **ALFALFA** and sprinkle this mix under the carpets in their place of business once a week to attract **Repeat Customers**, aid **Business Decisions**, and draw in **Cash**. The same three herbs are ingredients in **MONEY STAY WITH ME OIL**. We make no claims for the efficacy of **SASSAFRAS**, and sell as a Curio only.

LUCKY MOJO CURIO CO.
6632 Covey Road, Forestville, Cal.

Vaccinium corymbosum
highbush blueberry

'Chandler'

'MNPINK1' Pink Popcorn™

Viburnum acerifolium
